**Why are we doing this?**

Over the last year a variety of factors have led WRTD staff to believe it would be beneficial to alter the existing bus routes in order to better serve its existing and potential future riders.

- Existing schedules are not easy to understand, particularly with all their special exceptions from a standard route

- Ridership has dropped on many routes indicating the current routes may not be meeting needs as well as they used it
- Ridership continues to be strong connecting Mansfield Center near the Windham town line to UConn campus, even during campus breaks
- United Services moved their services to a new location on North Frontage Road and need transit service

No additional funds are available to expand the service hours or change the area covered by the routes.

### **What is being proposed?**

The schedule and route changes cover three of the four fixed routes that WRTD operates. No changes are being proposed for the Willimantic-Norwich Route 32 Commuter Route (674). The following summarizes the main changes. A more detailed list of changes are available in the "List of Route Changes".

#### *City Bus Local Route (671)*

- Divide the existing route which has two distinct areas into two separate routes
  - o The existing line that services Windham Heights would become "City Bus Heights"
  - o The existing line that services High St/ ECSU would become "City Bus Central" with a few minor route changes
- Add the new United Services facility on North Frontage Road
- More regular arrival times along the route

#### *Storrs-Willimantic Local Route (672)*

- Divide the existing route into three distinct variations
  - o A - Gateway Commons to Four Corners
  - o B - Foster Drive at City Line to UConn Whitney/ East Campus
  - o C - Gateway Commons to South Eagleville Road and Mansfield Transportation Center
- Prioritize connections from Mansfield Center near the Windham town line to UConn campus during peak travel periods
- Make more regular connections to destinations off South Eagleville Road such as the Mansfield Senior Center

#### *Willimantic-Danielson Commuter Route (673)*

- Extend the existing route slightly on both ends of the routes to enable riders to better reach their destinations from both ends of the route.
- Delay the second run of the day by one hour
